

To whom it may concern:

Sharmen Lane is a highly motivated person who successfully encourages people to take a deeper look at their lives and what they want out of it. She inspires others to go after their dreams and live the life they dream of. The speech that Sharmen gave at the Manhattan Chamber of Commerce's event was entitled "GPS to Success." Her energy and vibrancy caught the audience's attention immediately and her background helped the viewers to relate to her.

We received an overwhelming amount of positive feedback from Sharmen's speech. Our members were impressed and convinced that they had the power to create the life they truly wanted. Shar helps people to reveal their individual abilities and empowers them to take life into their own hands.

Sharmen's professional life serves as a model to others who are striving for success. She has written a book and is a Radio Host who has her own radio internet show. Sharmen is a pleasure to work with and positively effects all those she comes into contact with.
